PROFESSIONAL EXPERIENCE

King's College London London UK
Research Associate in Software and Hardware Engineering *Apr 2019 – Present*

- PI: Prof. Tom Vercauteren
- I am pushing forward the state-of-the-art of Ultrasound-Guidance Interventions where am involved in the development of a needle tip tracking system, real-time ultrasound image processing, quality management system (QMS) and clinical translation of medical devices, and public engagement activities. Similarly, I am developing validation experiments with linear stages under Windows and GNU/Linux OSs, designing electronic PCBs and 3D printing holders, characterising ultrasonic transducers, and contributing to a Python library via GitHub. All the previous activities in collaboration with an amazing team of renowned clinicians, engineers, QMS specialists and researchers in KCL and UCL. Additionally, I am leading the preparation of two manuscripts. See more at ().
